The Model Grocerteria

A thresher man told us, the other day, that the Grocerteria certainly made a hit with the farmers and the thresher boys. He says, "The fellows are all crazy about your salmon, sweet potatoes, coffee and ice tea." The Grocerteria man was pleased to hear this, as every employee has been instructed to pay particular attention to all threshing orders. Call us any time, day or night.

LOOK OVER THIS LIST

Gallon cans Cherries	\$1.25
Gallon cans Grated Pineapple	\$1.10

DRESS SHIRTS.

New styles, new patterns and new prices 85c to \$2.25. Look them over. JOHN'S VARIETY STORE

A marriage license was granted Tuesday to Ora O. Jackson and Margaret Behringen, both of Louisiana.

Can you estimate the value to our community, state and nation of the high class christian women who have been educated at Hardin College? If so, this will give you the first argument for helping make a Greater Hardin. The influence of an institution of this character is felt by the whole community. It effects every business interest either directly or indirectly in the thousands of dollars spent here annually and is of material value to our farm lands and all other Real Estate in Audrain County.

Let's make it grow.

W. W. Pollock

Service For The Farmers

In order that you may have every facility for the handling of your grain when it is most necessary to suffer no delay we are offering you the same splendid service we have always given.

30 men working day and night, at the cost of over \$800 a week, 30,000 sacks representing an investment of \$12,000 for your convenience.

Three big motor trucks who are always on the road bringing in grain.

The very newest of machinery installed to complete our large equipment so that we can handle your grain without delay.

The most modern grading machinery to make absolute grading without any loss of time.

Plenty of cars for shipping at all times because we load the many cars which come to us laden with material we are bringing into this city each day.

HARDIN—The School of Opportunity

I am giving my time and money to the \$500,000 Hardin College Expansion Campaign—

—Because it will assist young women to acquire a higher education.

—Because it will materially benefit the business interest of Mexico by distributing at least \$200,000 annually.

—Because it will help the farmer by increasing the population of our county, thereby advertising his land nationally.

It is my humble opinion that every citizen in Audrain will be fully compensated for every assistance he may render in making the \$500,000 Hardin College Fund a complete success.

Very truly

Nate Phillips
